International Journal of Cardiology, 25 (1989) 361–364
Elsevier

Contents Volume 25

Number 1

REVIEW

Calcium channel blockers in hypertension, *B. Maharaj (South Africa)* 1

ORIGINAL STUDIES

CARDIOLOGY IN THE YOUNG

Diagnostic and therapeutic use of transesophageal atrial pacing in children, *J. Janoušek (Czechoslovakia)* 7

Streptokinase in the management of arterial thrombosis in infancy, *C.R. Kirk and S.A. Qureshi (U.K.)* 15

Univentricular atrioventricular connection to a dominant left ventricle with a concordant ventriculo-arterial connection, *A. Cifarelli, D. Di Carlo, L. Pasquini, B. Marino and L. Ballerini (Italy)* 21

Infective endocarditis following patch closure of ventricular septal defect: a cross-sectional Doppler echocardiographic study, *S. Shrivastava and S. Radhakrishnan (India)* 27

Pulmonary arterial anatomy in tetralogy of Fallot, *S.N. Sharma, S. Sharma, S. Shrivastava, M. Rajani and R. Tandon (India)* 33

CARDIOVASCULAR RESEARCH

Pacemaker activity is modulated by tissue levels of cyclic adenosine 3′,5′-monophosphate in human atrial fibers, *C.-I. Lin, P.-L. Tao, Y.-F. Chang and B.N. Chiang (Republic of China)* 39

CLINICAL CARDIOLOGY

Left ventricular dysfunction in obstructive lung disease: an echocardiographic and angiographic study of cor pulmonale patients with decreased mitral E-F slope, *G.J. Song and P.J. Oldershaw (U.K.)* 47

Effects of DBcAMP on exercise capacity in patients with and without chronic heart failure, *H. Nakajima, Y. Miyagi, M. Fujita and S. Sasayama (Japan)* 55

Anti-ischemic effects of celiprolol in patients with exercise-induced angina pectoris, *H. Douard, M. Koch, T. Laporte, M.L. Abella, O. Provendier and J.P. Broustet (France)* 63

Cortisol level predicts myocardial infarction in patients with ischaemic chest pain, *R.J.I. Bain, V.J.I. Poeppinghaus, G.M. Jones and M.J.T. Peaston (U.K.)* 69

Hemodynamic and adrenergic effects of combined α/β-receptor blockade versus combined β-receptor and slow channel calcium blockade in patients with ischemic heart disease, *G. Koch and L. Fransson (F.R.G., Sweden)* 73

ELECTROPHYSIOLOGY

Accelerated idioventricular rhythm complicating atrioventricular junction ablation for automatic atrial tachycardia, *M.A. Goldstein, A. Dunnigan, N.A. Staley, D.G. Benditt, D.W. Benson, Jr. and S. Milstein (U.S.A.)* 81

Electrophysiologic evaluation of patients with hypertrophic cardiomyopathy, *V.K. Bahl, U. Kaul, V. Dev and M.L. Bhatia (India)* 87

HYPERTENSION

The effect of potassium and potassium plus magnesium supplementation on ventricular extrasystoles in mild hypertensives treated with hydrochlorothiazide, *J.A.J. Lumme and A.J. Jounela (Finland)* 93

PATHOLOGY

Coronary arterial pathology in the transplanted human heart, *H. Davies and S. Al-Tikriti (U.K.)* 99

BRIEF REPORTS

A large epicardial lipoma – an insight into the surgical anatomy of the interatrial septum, *T.R. Graham, J.A.C. Chalmers and C. Aldren (U.K.)* 119

Rupture of a pseudoaneurysm of a saphenous vein coronary arterial bypass graft presenting with superior caval venous obstruction, *M.D. Rosin, P.D. Ridley and P.H. Maxwell (U.K.)* 121

0167-5273/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

Pyrexia of unknown origin and aortic dissection, *P.P. Mc Keown and N.P. Campbell (U.K.)* 124
An arteriovenous fistula from an aberrant right subclavian artery to the superior caval vein in a congenitally myxoedematous adult, *C.-K. Wong, C.-P. Lau and W.-H. Leung (Hong Kong)* 126
Right heart failure as the sole presentation of carcinoid syndrome, *J.H. Lachter, A. Lavy and S. Eidelman (Israel)* 129
Doppler and echocardiographic diagnosis of a free-floating left atrial thrombus, *A. Maltagliati, M. Pepi and C. Fiorentini (Italy)* 131
Collateral circulation to the diagonal artery from the infundibular coronary artery in obstructive coronary arterial disease, *S. Sharma, U. Kaul and M. Rajani (India)* 134
Rudimentary dysplastic valvar tissue guarding the tricuspid orifice with dilatation of the right ventricle and a patent outflow tract, *J.C. Mohan, M. Tatke and R. Arora (India)* 136

LETTERS TO THE EDITOR

Physiological role of atrial natriuretic peptide, *A.M. Richards and I.G. Crozier (New Zealand)* 141
Reply: Effect yes, role no!, *R.S. Vasan, S. Seshadri and J. Narula (India)* 142
Mortality rates in coronary arterial disease, *W.E. Stehbens (New Zealand)* 143
Reply, *R. Beaglehole (New Zealand)* 144

BOOK REVIEWS

Cardiac Arrhythmias: the Role of Triggered Activity and Other Mechanisms, *by P.F. Cranefield and R.S. Aronson, reviewed by M.J. Janse* 145
Drug Therapy in Dilated Cardiomyopathy and Myocarditis, *edited by R.S. Engelmeier and J.B. O'Connell, reviewed by J.F. Goodwin* 145
Physiology and Pathophysiology of the Heart, *edited by N. Sperelakis, reviewed by R.H. Anderson* 146

Meetings and Courses 147
Information for Authors 149

Number 2

EDITORIAL

The role of surgery in the treatment of tachyarrhythmias, *G.M. Lawrie and A. Pacifico (U.S.A.)* 151

REVIEW

Estrogen and coronary arterial disease in men, *M.H. Luria (Israel)* 159

ORIGINAL STUDIES

CARDIOLOGY IN THE YOUNG

Diagnostic criteria of interatrial defects: a single gate pulsed Doppler echocardiographic study, *R. Oberhoffer and D. Lang (F.R.G.)* 167
The use of nifedipine in patients with Eisenmenger's syndrome complicating patency of the arterial duct, *C.-K. Wong, C.-P. Lau, W.-H. Leung and C.-H. Cheng (Hong Kong)* 173

CLINICAL CARDIOLOGY

Physiological effects of short-term training after myocardial infarction, *J.E. Nordrehaug, R. Danielsen, A. Bjørkhaug, I. Aam and H. Vik-Mo (Norway)* 179
Comparison of once and twice daily oral dosing schedules of bevantolol, a new β-adrenoceptor antagonist with α-adrenoceptor partial antagonist activity in patients with angina of effort, *A.O. Molajo, C.L. Bray and V. Hillier (U.K.)* 185
Leucocyte rheology in controlled coronary ischaemia, *G. Ciuffetti, G. Bellomo, M. Mercuri, R. Lombardini, K. Savino and L. Corea (Italy)* 193
Humoral regulation during cold-induced coronary arterial spasm, *T. Stefenelli, H. Sinzinger, H. Sochor, D. Glogar and J. Kaliman (Austria)* 199

ELECTROCARDIOGRAPHY

Dose related efficacy of adenosine triphosphate in spontaneous supraventricular tachyarrhythmias, *C. Moro, N. Lorio, A. Nuñez, J. Martinez, L. Novo, M. Aguilera and A.H. Madrid (Spain)* 207
Usefulness of transesophageal atrial pacing in hyperkalemia-induced impulse formation and conduction disturbances, *M. Di Biase, U. Rizzo, F. Minafra, M. Tritto, S. Favale and P. Rizzon (Italy)* 213

PATHOLOGY

An unusual ventricular loop associated with right juxtaposition of the atrial appendages, *J.W. Seo, G.Y. Choe and J.G. Chi (Korea)* 219
Editorial Note: Segmental interconnexions versus topological congruency in complex congenital malformations, *R.H. Anderson and S.Y. Ho (U.K.)* 229

BRIEF REPORTS

Total coronary arterial occlusion: real or apparent?, *A. Seth, R.A. Perry and M.F. Shiu (U.K.)* 235
Functional aortic atresia in congenitally corrected transposition, *K.C. Chan, P. Da Costa and D.F. Dickinson (U.K.)* 237
Myocardial infarction associated with a myocardial bridge, *R.S. Vasan, V.K. Bahl and M. Rajani (India)* 240
Surgical correction of tetralogy of Fallot in the presence of Ebstein's anomaly of the tricuspid valve, *K.C. Chan, D.R. Walker and J.L. Gibbs (U.K.)* 242
Asymptomatic left and right coronary artery–left ventricular fistula in an elderly patient with a diastolic murmur only, *S. Yokawa, H. Watanabe and M. Kurosaki (Japan)* 244

BOOK REVIEWS

Rheumatic Diseases and the Heart, *by J.A. Cosh and J.L. Lever, reviewed by R.H. Anderson* 247
Clinical Applications of Cardiac Digital Angiography, *edited by G.B.J. Mancini, reviewed by J.F. Reidy and D. Hawkes* 247
Exercise in the Practice of Medicine, *edited by G.F. Fletcher, reviewed by R.G. Wilcox* 248
Noninvasive Cardiac Imaging, *edited by R.S. Meltzer, et al., reviewed by R. Underwood* 248
New Perspectives in Cardiac Pacing, *edited by S.S. Barold and J. Mugica, reviewed by J. Morgan* 249
Brain Injury and Protection during Heart Surgery, *edited by M. Hilberman, reviewed by R. Ekroth and J. Vanderlendem* 249
Coronary Circulation – from Basic Mechanisms to Clinical Implications, *edited by J.A.E. Spaan, et al., reviewed by P. Collins* 250
Cardiomyopathies: Clinical Presentation, Differential Diagnosis and Management, *edited by J.A. Shaver, reviewed by J. Morgan* 250

Meetings and Courses 251
Information for Authors 253

Number 3

EDITORIAL

A suggested nomenclature for the developing heart, *T. Pexieder, A.C.G. Wenink and R.H. Anderson (Switzerland, The Netherlands, U.K.)* 255

ORIGINAL STUDIES

CARDIOLOGY IN THE YOUNG

Effect of hypoxaemia on enzymes supplying myocardial energy in children with congenital heart disease, *M. Šamánek, A. Bass, B. Ošťádal, B. Hučín and M. Stejskalová (Czechoslovakia)* 265
Assessment of bedside umbilical vein balloon septostomy using two-dimensional echocardiographic guidance in transposition of great arteries, *L. D'Orsogna, J. Lam, G.G.S. Sandor and M.W.H. Patterson (Canada)* 271
The accuracy of fetal echocardiography in the diagnosis of congenital heart disease, *L.D. Allan, S.K. Chita, G.K. Sharland, N.L.K. Fagg, R.H. Anderson and D.C. Crawford (U.K.)* 279

CARDIOVASCULAR RESEARCH

Response of large and small coronary arteries of pigs to intracoronary injection of acetylcholine: angiographic and histologic analysis, *A. Kawamura, H. Fujiwara, T. Onodera, D.-J. Wu, M. Matsuda, M. Ishida, G. Takemura, Y. Fujiwara and C. Kawai (Japan)* 289

CLINICAL CARDIOLOGY

Assessment of hemodynamic changes in the early phase of uncomplicated acute myocardial infarction, *R. Zimlichman, D. Mossinson and I.E. Ovsyshcher (Israel)* 303
Clinical and laboratory signs of reperfusion: are they reliable?, *J.C. Nicolau, A.M. Lorga, S.A.C. Garzon, J.L.B. Jacob, N.C.S. Machado, Á.J. Bellini, O.T. Greco, L.A.F. Marques and D.M. Braile (Brasil)* 313
The morbidity and mortality pattern of *Brucella* endocarditis, *S.S. Al-Harthi (Saudi Arabia)* 321
Digoxin or verapamil or metoprolol for heart rate control in patients with mitral stenosis – a randomised cross-over study, *R.C. Ahuja, N. Sinha, R.K. Saran, A.K. Jain and M. Hasan (India)* 325

EPIDEMIOLOGY

Similarities and differences between the epidemiology and possible dietary causes of coronary arterial disease and strokes, *S. Seely (U.K.)* 333

BRIEF REPORTS

CHARGE association in two monozygous triplets, *K.D. Blake, J.M. Ratcliffe and R.K.H. Wyse (U.K.)* 339

The natural history of the hypoplastic left heart syndrome, *L.D. Allan, G. Sharland and M.J. Tynan (U.K.)* 341
Doppler echocardiographic findings in coronary-pulmonary fistula, *S. Said (The Netherlands)* 343
Cross-sectional echocardiographic features of congenital submitral left ventricular aneurysms, *M. Nair, J.C. Mohan and R. Arora (India)* 346
Left ventricular pseudoaneurysm after replacement of the mitral valve: long-term survival and spontaneous closure, *Y.-T. Tai, C.-K. Mok and W.-H. Chow (Hong Kong)* 349

BOOK REVIEWS

Indications for Heart Valve Replacement by Age Group, *edited by C. Gomez-Duran and G.J. Ruel, reviewed by J. Pepper* 353
Non-atherosclerotic Ischemic Heart Disease, *edited by R. Vermani and M.B. Forman, reviewed by M.O. Coupe* 353
Cardiac Doppler Ultrasound. A Clinical Perspective, *edited by A.B. Houston and I.A. Simpson, reviewed by J.L. Gibbs* 354
The Heart and Hypertension, *edited by F.H. Messerli, reviewed by M.K. Davies* 354
Coronary Angioplasty (Cardiovascular Clinics 19/2), *edited by S. Goldberg, reviewed by R.J. Vecht* 355
Doppler Echocardiography, an Illustrated Clinical Guide, *by P. Wilde, reviewed by I.A. Simpson* 355
Pulmonary Atresia with Intact Ventricular Septum, *edited by R.M. Freedom, reviewed by R.A. Anderson* 355

Meetings and Courses 357
Information for Authors 359
Contents Volume 25 361
Subject Index Volume 25 365
Author Index Volume 25 373

Supplement 1

Introduction, *E.M.D. Paciaroni (Italy)* S1

REVIEW

Atrial natriuretic peptide: its mechanism of release from the atrium, *R. Ferrari and G. Agnoletti (Italy)* S3

ORIGINAL STUDIES

Evaluation of plasmatic ANP levels in subjects affected by essential arterial hypertension and in a group of patients undergoing dialysis, *R. Antonicelli, M. Melappioni, G. Campanari, F. Foschi, N. Panichi and E. Paciaroni (Italy)* S17
Increase of plasma atrial natriuretic peptide levels after sublingual administration of nifedipine in essentially hypertensive patients, *A. Rappelli, P. Dessí-Fulgheri, F. Bandiera and G. Di Noto (Italy)* S25
Pathogenetic mechanisms in essential hypertension. Analogies between a rat model and the human disease, *D. Cusi, E. Alberghini, P. Pati, G. Tripodi, C. Barlassina, R. Colombo, T. Cova, E. Niutta, G. Vezzoli and G. Bianchi (Italy)* S29
The Na-K-Cl cotransport in essential hypertension: cellular functions and genetic environment interactions, *M.L. Canessa (U.S.A.)* S37
Erythrocyte Na^+, K^+ pump inhibition after saline infusion in essentially hypertensive subjects: effects of canrenone administration, *R. Boero, C. Guarena, M.C. Deabate, B. Rolando, C. Rosati, F. Quarello and G. Piccoli (Italy)* S47
Calcium and sodium transport in gestational hypertension, *A.L. Tranquilli, R.A. Rabini, A.M. Cugini, N. Cester, H. Valensise, C. Romanini, E. Bertoli and L. Mazzanti (Italy)* S53
Peripheral vascular hyperreactivity in arterial hypertension, *T. Strangi, G. Lombardi, M.P. Braccili, E. Lo Sterzo, A. Lalli and A. Pennesi (Italy)* S57
Milrinone enhances cytosolic calcium transient and contraction in rat cardiac myocytes during beta-adrenergic stimulation, *S. Raffaeli, C. Ferroni, H.A. Spurgeon and M.C. Capogrossi (U.S.A.)* S63
Effects of verapamil on reoxygenation and programmed electrical stimulation-induced ventricular arrhythmias in the isolated heart, *M. Pahor, R. Bernabei, G. Gambassi and P.U. Carbonin (Italy)* S71
Arterial pressure and aging, *E.G. Lakatta (U.S.A.)* S81
